

# Get your child's immunization records anytime you need them!!!

## Children First Pediatrics Patient Portal

Our office has a Patient Portal for your convenient access to your child's:

- Medical History
- Immunization Records (you can print or email to schools)
- Patient Visits and Laboratory Results

Complete the form below and give to the front office. Keep the top half as a reminder to go online and set up your account.

Once the front office enters your information into our system an email from Follow My Health will be sent to you. (Watch your junk email because sometimes it goes there.)

Simply follow the directions on the website. **The birth year of your oldest child is your security code.**

The Follow My Health Patient Portal will offer you a video of the features and its use. It's that easy!

Complete the form below and give the bottom portion to the front office staff. Keep the top portion for your reference.
